8/18/2020

To all Family and Friends of our Residents,

It has been a year, hasn't it? Here at The Vines we have done our best to keep families in touch, being as accommodating as possible while maintaining a safe and healthy environment for our residents. We are happy and grateful we have the outside facilities to allow visiting. Our residents really needed to see their families. At the end of the day, it is YOU who are their treasures they wish to see and keep in touch with.

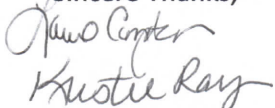

The Illinois Department of Public Health is now allowing indoor visitors. We want to be careful, safe and stress that outdoor visiting is strongly preferred. We also recognize there will be days that will not be possible due to weather conditions.

When you arrive to visit indoor or outdoor, we expect you will be symptom free and wearing a mask.

For indoor visitors, please call the day of your visit. When you arrive, sign in our log in the entry way. The state expects us to maintain these records for contact tracing should you come down with symptoms within 3 days of visiting. If symptoms do develop, please contact us as soon as possible. Please wash your hands at the sink in the nurse's station, we will check your temperature and you may proceed to visit your loved one. Residents with private rooms can have visitors in their rooms. Areas will be designated for residents without private rooms. In all cases, please maintain 6 foot distance from others and stay with your loved one only.

Your cooperation, patience and trust are appreciated throughout this process.

Sincere Thanks,

Laurie and Kristie
